Modem-Series Highlights

Reliable. The MultiMobile cards are manufactured with state-of-the-art laser welding for the ultimate in structural reliability. Speed buffering and extensive error correction are included to prevent data loss.

One PC Card Modem for the World Traveler. The MultiMobile international models comply with worldwide standards necessary for reliable data and fax communications in many countries around the world.

Integrated Data Communications and Fax Software. The bundled software provides an easy to use graphical interface for data and fax communications.

Easy to Use. The MultiMobile cards have intuitive GUI installation and configuration software and Windows 98/Me/2000/XP Plug and Play.

Comprehensive Service and Support. The Multi-Tech commitment to service means we provide a five-year product warranty and service that includes technical support, 24-hour web site and ftp site support.

Additional MultiMobile Products. The MultiMobile family offers a selection of laptop solutions, including 16-bit PC Cards and portable USB modems for users requiring USB, Ethernet or ISDN cards.

Global Model. With the MT5634ZLXI, you need just one modem for worldwide use. This model has approvals in many countries so you can ship one SKU (stock unit) virtually anywhere in the world. The global modem is ideally suited for OEM customers, multinational corporations and systems integrators.
